

DAVID L. SARTORI

8th District Newsletter

April 2017

Hello to the wonderful residents of the 8th District! I hope this newsletter finds you well. In this issue I talk about some important items going on in Milwaukee County. Come check it out! As always, I am privileged to serve as your Supervisor, and look forward to hearing from you!

Blessings,

-David

"In planning and constructing an integrated public transportation system, we plan for the future."

- David L. Sartori

Supervisor Sartori is sworn in as a Board member to the Milwaukee County Federated Library System by County Clerk George Christenson.

April Highlights

- Upcoming Community Blood Drive
- Concerns re: storage of hazardous materials
- The Milwaukee Street Car
- Energy Assistance Important Dates

Mark Your Calendar! Community Blood Drive

By donating blood at our drives right here in Cudahy, you are a part of a life-saving plan in the lives of friends, family members, and neighbors that need blood each and every day. Each day the Blood Center of Wisconsin needs to collect more than 800 units of blood. Fifty percent of that total comes directly from mobile drives like ours. Be a Hero! Join us.

Hazardous Chemical Storage

Many of you in the District may have seen [this article in the Journal Sentinel](#) regarding the storage of hazardous chemicals. When this matter was brought to my attention, I immediately phoned our County Director of Emergency Management.

I was advised that there are approximately 262 companies in the County which are in possession of the legal definition of a “large” supply of hazardous chemicals, and which they are legally obligated to report. These same companies are also subject to extensive inspections on an annual basis, and there is even a mixed private and governmental council which meets on a regular basis to help supervise and monitor storage.

The facility the article names is one of those that are inspected on a regular basis, and has been found to be in complete compliance. I have also taken meetings with State Senator Chris Larson, Senator Tammy Baldwin, Rep. Gwen Moore and other officials about the matter, and I am satisfied that there is no continuing hazard.

I was quite pleased and impressed with the level of preparedness Milwaukee County maintains in relationship to the potential hazardous threats these chemical barrels manifest in our County. However, I am happy to discuss this further with anyone who has ongoing concerns. Indeed many of those 262 companies are located in St. Francis and Oak Creek. Please know this is something I am taking and will continue to take very seriously.

April 26

Taking Steps Toward a Healthy Heart

Julie O'Neill, RN, MSN | Community Nurse Educator
The Karen Yontz Women's Cardiac Awareness Center

Are you at risk for heart disease? The answer is yes! Heart disease is the #1 health threat for both men and women. The good news – the majority of heart disease is preventable and an estimated 80 percent of heart disease diagnoses can be prevented. How? Join Julie O'Neill as she reveals tips on how you can become part of the 80 percent.

the milwaukee STREETCAR

FOLLOW OUR MOMENTUM!

You may have seen recent coverage by the Journal Sentinel that Milwaukee County has voted to place a bid on the operation of the new Milwaukee Streetcar. I would like to share with you why I supported this proposal.

As a member of the Transit committee, as well as a County Supervisor, I received repeated requests from a number of sources, but primarily from the ATU (Amalgamated Transit Union which operate MCTS) to allow Milwaukee County to compete for the administration of the streetcar project. They quite correctly pointed out that by allowing Milwaukee County to bid on the operation of the streetcar, we would have a chance at making streetcar jobs, union jobs.

Furthermore, by allowing the County to bid on the contract, we could promote economic development within Milwaukee County by keeping the contract local. The alternative is that the contract is awarded to one of three or four out-of-state transit firms (all for-profit companies) that have submitted bids. MCTS has experience in "running a system" and City of Milwaukee has no such experience. In this regard, the proposal makes commonsense.

Let me digress briefly by indicating that the "Streetcar Project" is a reality. Period. Milwaukee County had no control over its institution, no way to stop it, etc. It is happening. Actual construction for phase #1 of their three-phase plan is to commence next month, if not sooner.

So what we have to decide on now is if Milwaukee County will jump on this already moving train. At this stage, the County's proposal would add many positive features to the system, including planning to avoid overlap between MCTS and the streetcar, a seamless transfer system, for its users.

Milwaukee County is not taking over the Streetcar Project. We are merely in competition against three or four other firms to provide operational services, *for which we would be duly compensated*. The union even estimates that the cost of taking on the streetcar could be absorbed totally within MCTS' existing budget.

Whether Milwaukee County Transit Company (a quasi-public company) will be successful or not at this point unclear. Personally, I would prefer MCTS being awarded the administration bid.

One last thing I would like to make clear is that the County is in no way financially responsible for the operation of the streetcar. It is a municipal service, and thus is being funded by the City of Milwaukee. I would direct you to read the language of the resolution which I have linked in

Read the text of the resolution for yourself [here!](#)

in the green box next to this text. It states *Milwaukee County will not incur or commit to any financial liability to develop or operate the Milwaukee Streetcar as part of any response to the City of Milwaukee's Request for Proposals*. As always, if you have any additional thoughts on this project, I am happy to hear them.

Blessings, -David

April can be a stressful time of year for many members of our community who rely on energy assistance. We currently estimate over 1500 households are eligible for energy assistance in both South Milwaukee and Cudahy, but only 500-600 apply each year. We have opened a new site at 5663 S 27th St. to help south-side customers.

Timeline/Important Dates:

March 27-Disconnection notices sent from We Energies

April 15-End of Moratorium-Disconnections Begin

May 15-Season end/last day to apply for Energy Assistance Benefits!

May 16-September 30-Residents can still apply for crisis benefits, if available

October 1, 2017, Start of the 17-18 Heating Season

November 1-Moratorium begins

The Energy Assistance
Heating Season Ends
5-15-2017

This is a FREE event available to the entire Community ages 12+.

Franklin Area Parents and Students United Presents: **Stairway to Heroin**

Tuesday, April 25, 2017

6:00 - 6:30 PM Resource Fair

6:30 - 8:30 PM Program

Saber Center for the Performing Arts

(at Franklin High School) 8222 S 51st St, Franklin, WI 53132

Children increasingly are coming into contact with illegal drugs. According to the American Academy of Child and Adolescent Psychiatry, the average age of first time marijuana use is 14. The average age of first time alcohol use is 11 for boys and 13 for girls. By the time they graduate from high school 40% of all teens have used marijuana. We cannot assume that all children who smoke marijuana will become heroin addicts. However, the danger does exist, and research supports the progression of use.

Parents are still the most powerful influence in their children's lives. Children who learn about the risks of drugs and alcohol from their parents are 50% less likely to use than those who don't. Please join us to learn how you can be part of the solution to this ever-growing concern in our community. Education of students, educators, parents and the community is essential.

Please register for this free event at <https://stairwaytoheroinfranklin.eventbrite.com>

Registration is not required, but appreciated for planning purposes.

Come hungry! The Cudahy Lions Club will be offering a brat fry. Free drawing for a \$100 Visa card!

April 8th, 9AM

General Mitchell International (MKE)

Spring is officially here, and the warmer weather also signals that annual maintenance on the airfield will be heating up!

- The main east-west runway used by commercial airlines, **Runway 7R/25L**, will be closed for pavement work from early June through mid-July.
- Two runways that primarily serve smaller General Aviation aircraft will be closed this summer. **Runway 13/31** will be closed from mid-June through the end of August. **Runway 1R/19L** will be closed from mid-June through mid-August. The map below has more details.
- There will also be intermittent closures during daytime hours for regular maintenance work. Runways generally remain open during nights and weekends.
- Both paved runways at **Timmerman Airport**, the General Aviation reliever airport located on Milwaukee's northwest side, will be closed for six days in late May. This closure is necessary to replace the pavement at the intersection of these runways. During this period, one sod runway will be available to pilots when the field and weather conditions are favorable for grass landings. **Runway 15L/33R** will also be closed from late June to late July for runway improvements.
- The [Milwaukee Air & Water Show](#) returns this summer with a headline performance from the U.S. Navy Blue Angels. This may result in additional aircraft noise over certain neighborhoods during the weekend of July 15. The Blue Angels will likely do some practicing earlier in the week as well.
- Several new nonstop routes have started at MKE recently. So far in 2017, the Airport has welcomed new service to Guadalajara, Mexico on [Volaris](#) and to Seattle on [Delta Air Lines](#). A new nonstop route to Portland, Oregon will begin in June on [Alaska Airlines](#). These new routes are very important to our residents and business community.
- [Stars & Stripes Honor Flights](#) at Mitchell Airport are currently scheduled for April 8, May 21, and June 10. These flights fill the terminal with friends, family, and other spectators to cheer on our veterans as they visit memorials in Washington, DC. We thank these veterans for their selfless service to our country.

MKE Runway Layout

Runway 7R/25L

Closed from early June through mid-July.

Runway 1L/19R

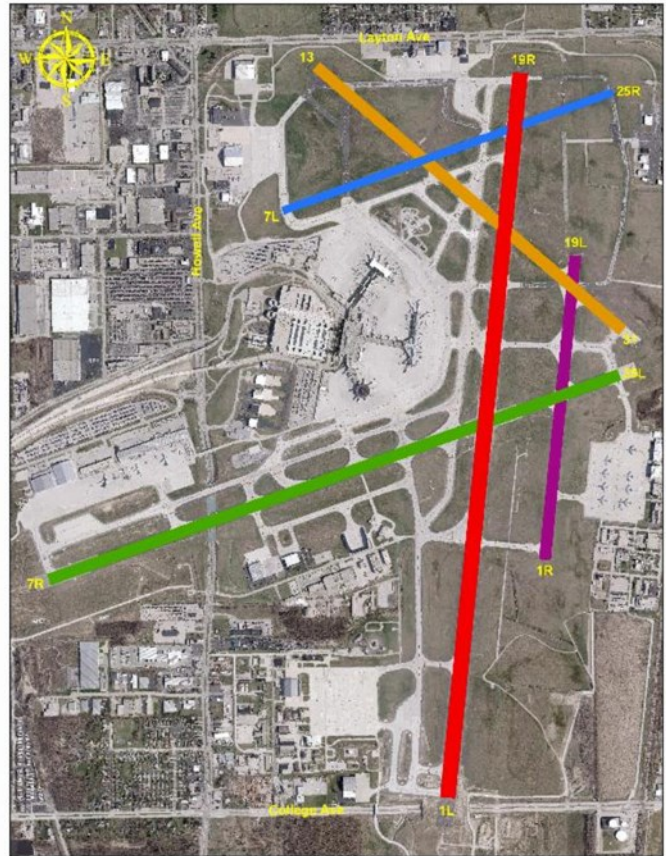

Open. Intermittent daily closures possible.

Runway 1R/19L

Closed from mid-June through mid-August.

Runway 13/31

Closed from mid-June through the end of August.
